

Smartbase

In vehicle Qi wireless charger with Bluetooth® handsfree communication kit

Drive safe, drive smart with this Bluetooth handsfree kit, wireless charger and ADAS on your smartphone.

JBL Smartbase, coupled with ADAS app adds safety and convenience features found in the latest vehicles on the road including LDW (lane departure warning), FCW (front collision warning), Traffic Signal Recognition, Video Recording and Vehicle Location to your ride. Plus, the embedded Bluetooth communication system with Voice Logic Noise Cancellation Technology provides a quality hands free phone call experience even with the windows open or the top down. Smartbase is voice controlled and commands can be pre-defined, making them language independent and suitable for all. To charge your device, JBL Smartbase provides integrated WPC Qi wireless charging capability adding to its convenience and ease of use. JBL Smartbase, together with your smartphone, makes your vehicle more smart and safe.

Features

- ▶ Patented Voice Logic Noise Cancellation Speakerphone
- ▶ Qi Wireless Charging (for wireless charger version only)
- ▶ Bluetooth Wireless Streaming
- ▶ Works with ADAS Apps on Smartphone
- ▶ Voice control with customization
- ▶ Supports Siri, Google Now

Smartbase

In vehicle Qi wireless charger with Bluetooth® handsfree communication kit

Features and Benefits

WPC Qi Compliant Wireless Charging

This popular industry standard works with most smartphones and uses a fixed frequency transmitter to minimize impact to other electrical systems in the vehicle. (For wireless charger version only.)

Compatible to ADAS Apps on Smartphone

Adds ADAS (advanced driver assist system) functions like LDW (lane departure warning), FCW (front collision warning) and Traffic Signal Recognition into vehicles with minimum cost and no modifications to the vehicle.

Voice Logic Noise and Echo Cancellation Technology

This Patented Noise Cancelling Technology uses beamforming, echo cancellation and noise suppression, without introducing any digital artifacts or distortion. Voice Logic minimizes background and wind noise to deliver superior voice quality as well as the highest speech recognition accuracy. This allows the driver to enjoy crystal clear phone calls even with strong road or wind noise.

Wireless Bluetooth Streaming

This allows you to enjoy JBL quality sound wirelessly via Bluetooth.

Voice Control

The JBL Smartbase supports both Siri and Google Now. Resident commands in the Smartbase can also be customized by language.

What's in the box:

- JBL Smartbase
- Cigarette lighter to power supply cable
- Safety sheet
- Quick start guide

Technical specifications:

- ▶ Power input: 12V, 2.0A
- ▶ Transducer: 2 x 33mm
- ▶ Rated power: 2 x 5W
- ▶ Frequency response: 100Hz to 18kHz (-6dB)
- ▶ Signal-to-noise ratio: >80dB
- ▶ Wireless charge: WPC Qi (for wireless charge version only)
- ▶ Voice control
- ▶ Bluetooth® version: 4.1
- ▶ Support: A2DP V1.3, AVRCP V1.5, HFP V1.6
- ▶ Bluetooth® transmitter frequency range: 2402 – 2480MHz
- ▶ Bluetooth® transmitter power: 0-4dBm
- ▶ Multi-points (up to 2 phones)
- ▶ Echo cancellation
- ▶ Dimensions (H x W x D): 67mm x 144mm x 131mm
- ▶ Weight: 580g
